* Please note that video material should be shot so, that you should be clearly visible from the front. Within reason, picture and sound quality are not important. If you have no video material and wish to apply for active participation, please, send a short video of yourself conducting imaginary musicians - no more than five minutes from a "standard" work, which may be classical / romantic or early 20th century. Ideally video material should be provided via a link to Youtube or similar site (you can set up a private page if you don't want it to be visible to anyone else) or via a file transfer service.
