# Maremma Musica 2024

The Maremma Musica 2024 festival is aimed at music students (piano, string instruments, chamber music) and takes place in the idyllic landscape of central Italy between the Tuscan hills and the coast near Grosseto. Accommodation and master classes are located in Campagnatico, a beautiful, quiet village that has managed to retain its original character over the years.

Various music for piano, chamber music ensemble, and string orchestra will be worked on. All active participants have the opportunity to take part at the concerts and/or give a recital. There are also 3 lessons of 60 minutes each on the respective instrument.
